NATIONAL PHOTOGRAPHIC INTERPRETATION CENTER

NPIC REGULATION
NO. 5-110

PUBLICATIONS
14 September 1961

o/d file

RELEASE OF NATIONAL PRODUCTS AND MATERIALS

1. RELEASE OF NATIONAL PRODUCTS AND MATERIALS. This regulation prescribes the policies for the release of unpublished and published NPIC products and materials to appropriately cleared individuals or facilities outside of the Center.
2. DEFINITIONS
 - a. UNPUBLISHED NATIONAL PRODUCTS AND MATERIALS are manuscripts and graphic presentations specifically prepared for incorporation in a formal NPIC publication.
 - b. PUBLISHED NATIONAL PRODUCTS AND MATERIALS are printed or duplicated documents which have passed through formal NPIC publication channels and have been released for dissemination by the Director, NPIC.
3. POLICIES
 - a. UNPUBLISHED NATIONAL PRODUCTS AND MATERIALS may not be released by a Center Detachment to individuals or facilities outside of NPIC without the written concurrence of each Detachment Senior Intelligence Officer or his designee and the Office of the Director, NPIC. This does not preclude the coordination of national reports by Detachments with non-Center associates, providing such action does not involve the actual release of products or materials from the custody of the Center or the Detachment. The SIO sponsoring the release of unpublished national products or materials will obtain the above concurrences and authorization and will provide for the secure transmittal and disposition of released items in keeping with the interests of other participating organizations.
 - b. PUBLISHED NATIONAL PRODUCTS AND MATERIALS normally cite that reproduction is prohibited without the permission of the originator(s), (the participating organizations). Each SIO may authorize the reproduction of a published national product or portion thereof for use by his parent service without reference to other participating organizations. Reproduction permission

Declassification Review by NGA

NPIC REGULATION
NO. 5-110

PUBLICATIONS
14 September 1961

Requested by an organization not engaged in the concerned national product will require authorization from the Office of the Director, NPIC. Whenever feasible, reproduced national products or materials shall reflect appropriate credit to the Center.

- c. RELEASE TO CONTRACTORS (REF: USIB-D-39.5/2 dated 10 Nov. 1959 - See Exceptions para. 3j.)

The parent Department/Agency of the several participating organizations may have need for the release of the NPIC product to contractors on projects of both an intelligence and non-intelligence nature. As long as the provisions of the reference are met, each SIO may effect the release to such contractors as authorized by his parent organization providing the security restrictions of the report or material are observed by the contractor and that these materials are returned to the releasing Department/Agency at the termination of the contract for which the material was originally required.
